Real-Time Control

MoMa enables operators to view real-time alerts and inventory status, as well as change machine configuration, reducing the reliance of office support for routine maintenance tasks.

Advanced Monitoring

A smart dashboard highlights sales, alerts, machine status, and routes for intuitive operations, enabling you to locate problems by filtering through changes in sale trends and critical machine alerts.

Actionable Alerts

MoMa puts the power of Nayax monitoring at your fingertips with Visit-2-Visit (V2V) information enabling you to optimize your operation. Improve customer service by locating and tackling issues as they occur.

Route and Inventory Management

MoMa will enable operators to schedule machine visits, change product maps, create picklists, and manage inventory. **(coming soon)**
